GRADY, d — that is a motion for leave to amend the complaint or insering allegations of the insertency of John Harrison at the time of his death, and that the plaintiff, by vir-tue of two assignments from Solomon Kip, respectively dated April 26, 1800 and April 27, 1850, and also by order of the Supremo Oout in pursuance of which the same were executed, he be-cause, was and is entified thereby, and by force of his said char-acter of Special Administrator, to the relief demanded in the complaint.

came, was and is entitled thereby, and by force of his said claracter of Special Administrator, to the relief demanded in the complaint.

Numerous objections to the proposed amendments were presented, and elaborately discussed on the motion; prominent among which was the delay of the cleateff in asking the favor of the Court. I have given to them all such consideration as the time which has expired since the motion has serial tod, and it have arrived at the conclosion that the motion woust be greated. Both of the facts to be alleged, if they existed all, existed prior to the commencement of this action, and on the notion be retofore more for leave to ble asppelment of complaints we held on appeal that such is awe was not granted when the same object could be accomplished by smendment. He rot design to consider and discuss the various objectious to which I have referred, but simply to state that use a an examination of the papers and authorities read and referred to on the motion. I think subscantial justice requires that the amendment about be answed. I have not been insensible to the organize of the argument of the defendanties council, for the force of the facts which were grounded and arrayed, against this application, but on a motion of this character I do not ceen it necessary to pass upon the ment's of the controversy, or to determine either the validity of the claim of the plaintiff a right of action. Those questions must be presented in another form and in a different manner. It is only necessary to apply the terms which the Court has atopted in similar cases to indemnify the defendant for the expresses to which he has been subjected, if the new allegations paralyze his defense. There is no hardstip ha this I do complexity were demisted and the statute of initiations did not intervene, the plaintiff would have the right immediately now the spilecate. SUPREME COURT-Special Term-June 30. Before Judge CLERKE HABEAS CORPUS QUESTION UNDER THE ENLISTMENT

Habeas corros question under the entistment Law.

In the matter of Wm. H. H. Cook.

A writ of Habeas Corpus was granted, a day or two since, on the petition of Sarah Willia, which alleges that her son is under 21 years, and is illegally detained at Governor's Island areas premse of colletiment.

The return to the writ admits the young man to be under age, but claims that his emistement in February last is binding because made "with the consent of his parent." And on this allegation issue is joined.

It aspears that when the bey was examined, his mother gave ber consent orally and he was taken on trial for ten days. At the expiration of that time, this congent was reduced to writing, one he was taken litt of the service.

A question of fact was raised as to whether the congent first given was valuntary or not; and the connect for the petitioner further exceed that the oral concent, if given, was waived by the subsequent consent in writing, which therefore bound the Government, and is in contravention of the statute, which says that it must have been "Birst had or obtained"

But he rested the strongth of his case on the argument that the consent of Mrs. Willis's humbard, stepfather of the boy and his lawful guardian, was necessary under the statute which provides that no person shall, &c. "without the consent of the "parent or guardian, or master," &c. The Government.

The present case is intended to test this very important quastion, we learn, a decision of which will affect the rights of the action of which will affect the rights of the sort petitioner. Joe Lovell for the Government.

Win, Wande I, assignee, &c., egt. Ann B. Oris avoid case and the mother of the shall we may minors now in the army Decision reserved.

Motion granted.

Wm. Skinner agt, New-York Central Rairoad Campany.

Motion demied, without costs.

Thos F. Whiton et al. agt. Hiram Hunt.

Motion denied, without costs, with liberty to plaintiff o reply to amended answer, if necessary.

Operators and the public appear to have jumped to a sudden appreciation of the merits of Eric stock and are as anxious to buy it at 60 261 as they were a short time since to sell it at 50 @ 51. The transactions were again large to-day and the price advanced from 50% to 61, closing at 60 a 61, an advance of 1 to 11 P cent with transactions to the extent of about 12,000 shares. The business of the road continues to be very large and this feature first at racted attention recently to the low price of the stock to which the late impetus was given by the purchase of some 10,000 shares by leading foreign houses, and thich it is supposed, are held for much higher prices. In view of the comparative cost and comparative traffic, it is very certain that Erie is either too low, or other stocks, which could be named, are too high. It is true Erie is paying no dividends, but the Com pany are carning some nine per cent per amum eclusive of the sinking fund, which is now ? per cent on t'e capital stock. The programme at present is to resume the payment of cush dividends next March or April in addition to stock dividend of 10 F cent from the accumulations of the Sinking Fund. It must also be considered that the management of the road is now honestly and economically administered, and none more so than that portion of it confided to Mr. McCallum, the Superintendent Mr. McCallum, since he entered the service of the Company, and introduced a system and economy in the operations of the road which is alone worth : P cent to the stock. In Reading there is no change, and the market closed at 92; Central, 924; Panama, 1044, carrying 6 P cent dividend; Illinois Central 100 bid, interest dividend off, equal to about 1011. The advices from the West in regard to the road are very favorable. Norwich sold at 30, and New London at 8. The sales of Nicaragua were larger than usual at In Western shares the market was not very active, but steady. Cleveland and Toledo, however, advanced | P cent, and Wisconsin Lake Shore sold at 731, which is better. This stock carries 4 & cent cash dividend. There was some inquiry for La Crosse and Milwaukee, which has not yet been introduced at the Board, and note was offered below 75. Railroad Bonds are in moderate demand and prices have an upward tendency. Eric of 1875 advanced to 94; 1871, 861; Illinois Central, 881; Hudson River, 68. A private sale of Goshen branch was made at 87, and 864 was bid for Michigan Southern Sinking Fund. State

Stocks are firmly held, which checks transactions, The demand for Exchange has not been large to day, but rates were firmer at 9 2 10 P cent for Sterling, 5.17 | # 5 16 | for Francs. The supply is moderate. Freights are higher. 60,000 bushels Grain to Liverpool at 82 2 2 d : 6,000 barrels Flour at 2s 64 2 28. 9d.; Rosin 28. 3d. #28. 6d.; Bacon 258; Cotton 3-16d. The payments at the Sub Treasury to-day were \$884,921, including \$502,000 transferred to the interest fund for the payment of the interest due 1st July, This will throw that amount of gold into the Banks. The receipts were \$299,134 48. Balance, \$5,770,856 25. Paid for Assay Office, \$69,365 82. Paid on Disbursing Checks, \$13,485 06.

The Bank statement of the week, after the drain of two and a balf nullions to Europe, shows a smaller decrease in the specie line than was anticipated; and against three quarters of a millions, shipped on Syurday, which did not affect the average much, we received two and a half millions from California, which also did not tell, but to a small extent, on the average It is, however, probable that we have touched the highest point at present in the specie line. The losses shew an increase of over \$1,450,000, and are now very pear the highest point over reached April 12, when they were \$117,840,435, the deposits shew a nominal decrease of \$50,000; but in consequence of the maller amount of clearings during the week, there is, and Fishkill Railroad Co. 7 P cents; Northern Cross

in fact, an increase of about a million. The Banks are leading freely on stocks and discounting freely, and while the specie hire remains near the present point, these institutions will probably continue to expard their leans. The comparison with last week is

The low grades of flour, which are not in large supply, are ic. P bbl. better, but other grades are un changed. For shipment, the demand is checked by the advance in freights. State brands sell at \$5 55 @ \$6. The advance in freights also checks business in grain. Prime lots of wheat have an upward tendency, but inferior grades are lower. Corn is quiet and unchanged. Perk is again better, with a speculative inquiry. In other provisions, the market is unchanged. There is nore buoyancy and activity in sugar. The sales are 1,810 hhds., including a cargo of Porto Rico at 9c. Molasses and coffee are unchanged.

The Cleveland and Pittsburgh Railroad advertise in another column their semi-annual dividend of 5 & cent, payable in the 7 P cent Bonds of the Company. After this dividend the Company have a surplus of about \$100,000, or some 10 P cent on the stock. The Bonds are deliverable on the 1st August prox.

The interest on the State Debt of California will not honor of the State. Mr. Bates, the Treasurer of the State, has assured several persons, in one case as long ago as early in May, that the money for the interest had been deposited with Messrs. Palmer, Cook & Co., the agents for paying the interest. We shall be glad to have a satisfactory explanation from this house which has thus twice brought the State of California to financial dishonor. We learn that hereafter Messrs. Wells, Fargo & Co., will be the agents for the pay ment of the State interest. The Bonds of California are much depressed of course under this second failure

to pay interest. We are authorized as d requested by the Metropolitan Bank to say that the ramors which reached here by the last steamer that a serious run had been made by depositors upon the banking house of Lucas, Turner & Co., of San Francisco, are without foundation. The letters, both business and private, which came by the last steamer, state that the business of the house never was more prosperous. The rumors of a run grew out of the fact that Capt. Sherman, one of the partners of the house, had taken charge of the paper battalions ordered out by the Governor against the Vigilance Committee. In regard to this matter we learn that Capt. Sherman accepted his commission before the Vigilance Committee were in session and will resign it as soon as he can with honor.

The Board of Brokers to day, after a warm discussion, voted by two majority to adjourn on Thursday pert over to Monday.

Messrs Duncan, Sherman & Co , took possession en Saturday afternoon of their magnificent banking house, corner of Pine and Nassau streets. The building is about 30 feet by 90, and cost, with the land, about \$300,000. It has been heretofore fully described in our columns. Beside being one of the most elegant buildings exteriorly in the city, it is replete with every convenience and facility for the transaction of the buriness of the house and for the comfort of the employees. It is truly an ornament to the city, and a credit to the liberality of the eminent firm which built it.

Mr. C. E. Babcock, of the firm of C. E. & W. J. Babcock, domestic goods, No 50 Murray street, has been elected a Director of the Artisan's Bank. A general meeting of the stockholders of the Dau-

phin and Susquehanna Coal Companies is to be held at the office of the Company in this city on Wednesday. In our columns will be found advertised 9,991

shares, out of the 10,000 comprising the capital stock of the Ocean Steam Coal Company recently organized under the laws of Maryland. The sale is made by order of Messrs. W. H. Aspinwall and Joseph B. Varnum, under a contract entered into prior to the organization of the Company. The stock will be sold at auction this day (July 1) by E. C. HALLIDAY, at 121 o'elock, at the Exchange. The property of this Company consists of 2,400 a res of the 14-foot vein, in that part of the Cumberland Valley most advantageously situated for working and removing the soul. The supply is immense and the quality well known. The Circular of Messrs. Marié & Kanz for the

steamer says: The foreign news, with Liverpool dates to the 14th inst., received since our last report, though leaving as yet in uncertainty about the issue of our controversy with Great Britain, had no effect upon our market. The rise in Stocks noticed last week has been maintained with few exceptions. The Reading Rail-New-York, June 30, 1836.
